PLANNING FOR THE FUTURE

# CAMBERWELL HIGH SCHOOL MUSIC AND DRAMA CENTRE

## PLANNING FOR THE FUTURE

C.H.S. has a strong tradition of Music and Drama. To develop this feature of our school's creative activities, a multi-purpose Drama and Music Centre is being planned as the next major building project for the school. Not only will this free the Hall for other school activities, but also it will provide, for our students and the community, an exciting new complex for work and leisure.

## THE FACILITIES OF THE CENTRE

The Centre will include a fully equipped 450-seat multi-purpose Drama and Recital area, with rehearsal rooms. It is also planned to accommodate the Victorian Educational Music Library, currently located at the School. All these facilities will be available for both school and community use. The Centre will be built on adjoining land, which has been zoned for educational purposes, as soon as this land becomes available.

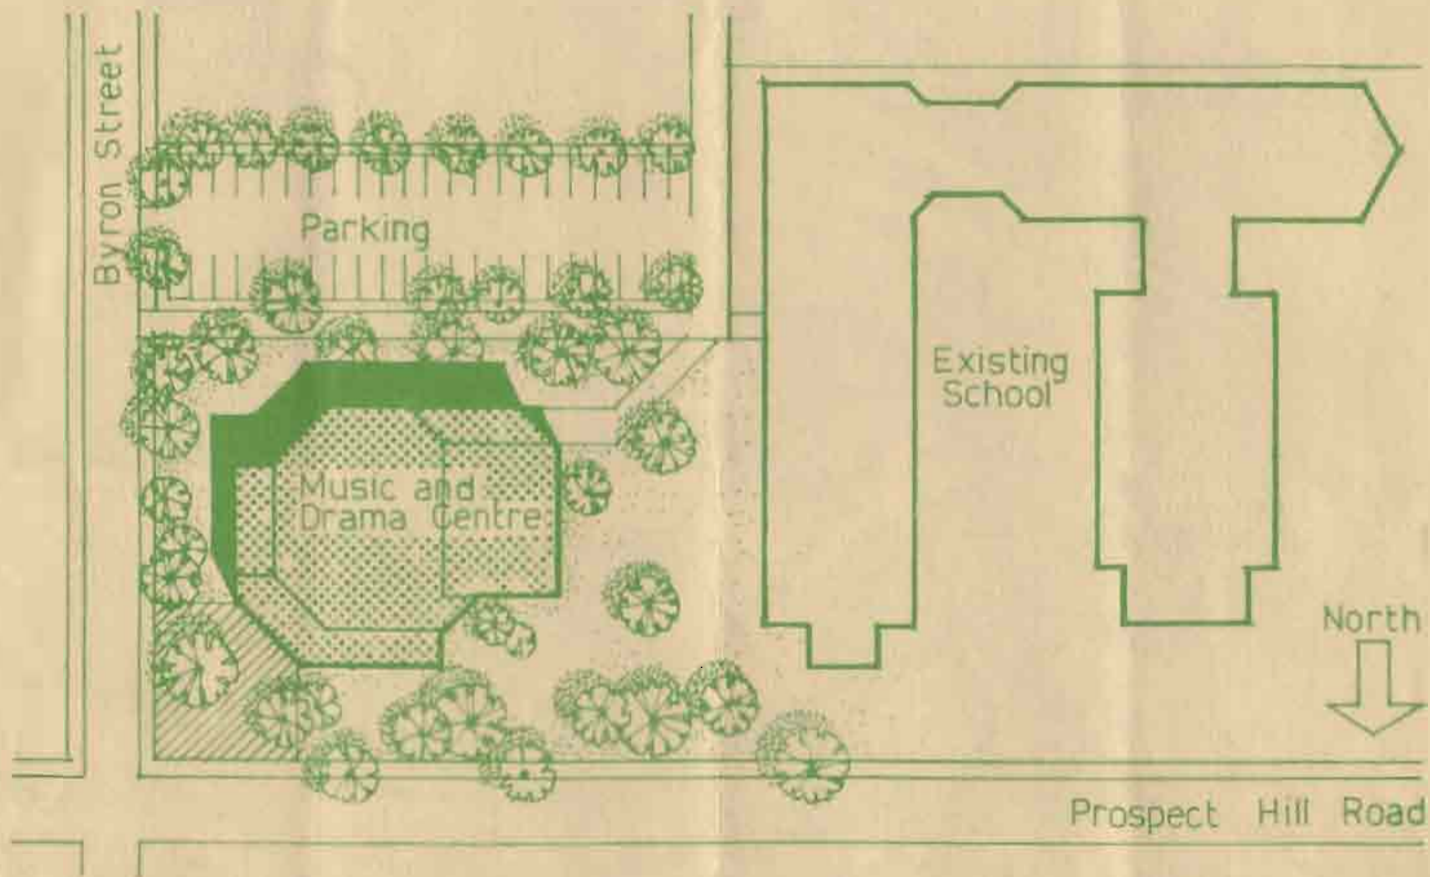

## COST

It is expected that the cost of this project will be in excess of \$300,000. Over the past 20 years parents' contributions have made possible the building of the Assembly Hall. While the school will explore all avenues of funding for this new project, the most important source of money will be the school community.

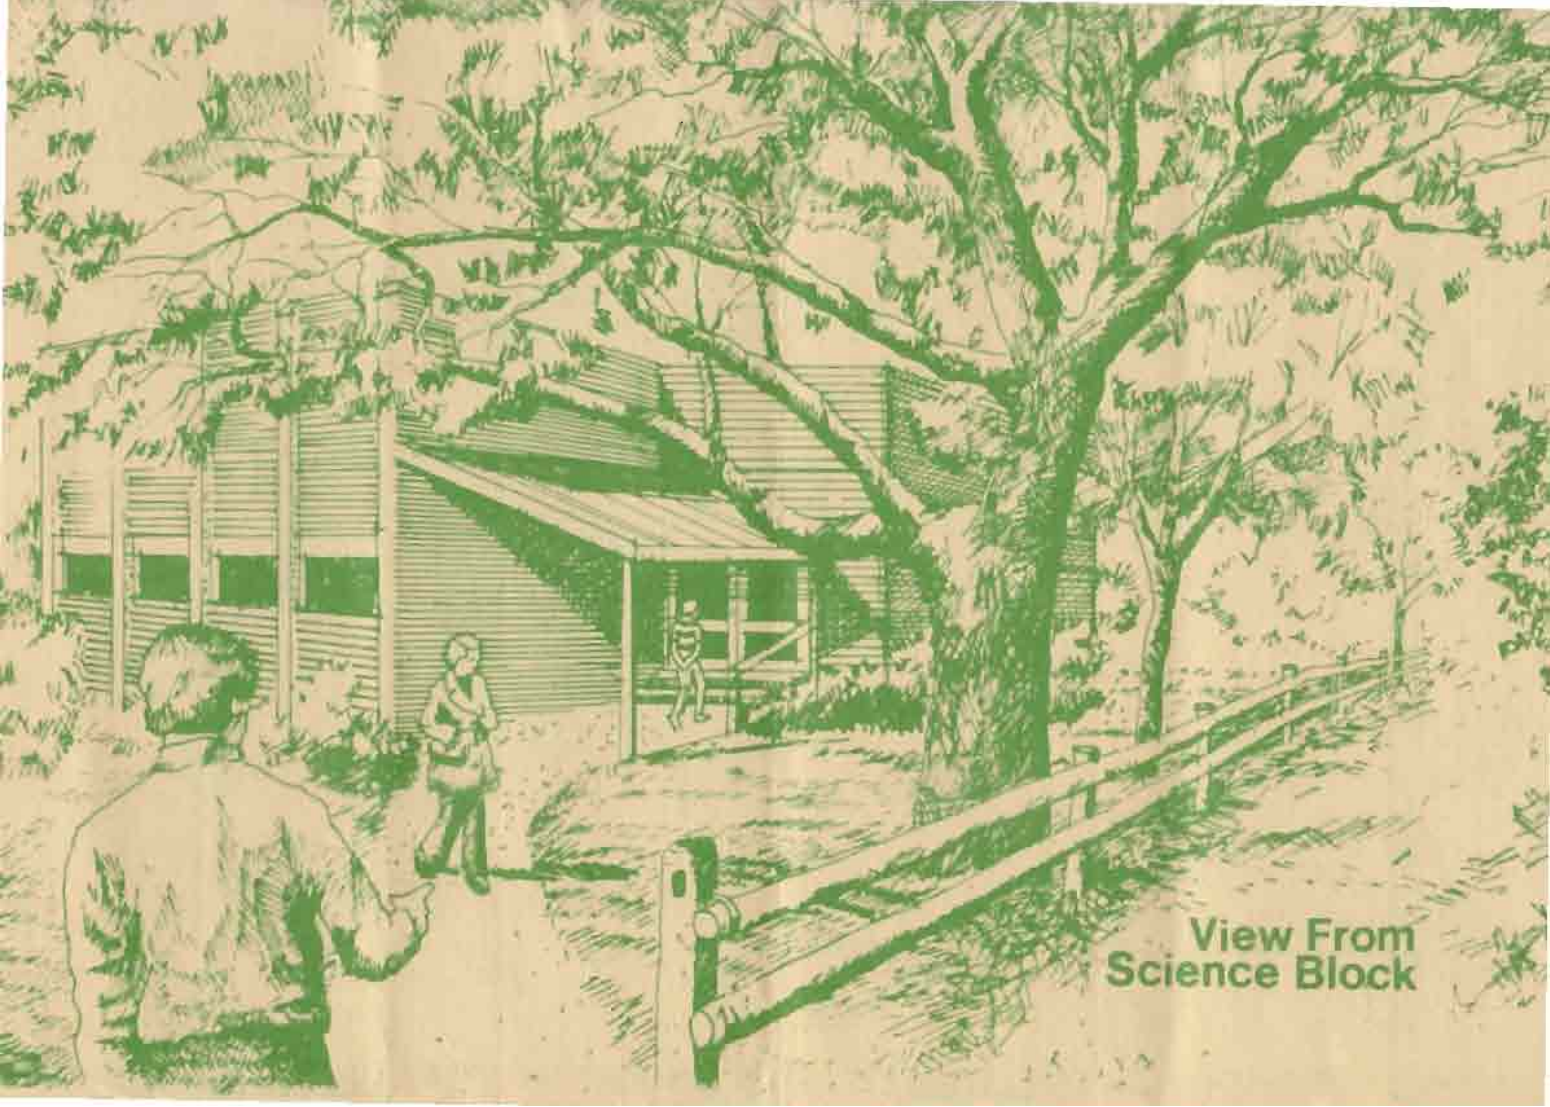

Donations to the Camberwell High School Council Building Fund are Tax Deductible.

Authorized by Camberwell High School Council.

Commander P. Richardson, President  
D. J. Collins, Principal
