ROWERS IN CLOSE FINISH

Camberwell High School senior eight were beaten by only a third of a length after a strong recovery in the first heat of the High School Regatta on the Yarra on Friday.

After only four strokes, Camberwell "caught a crab," and this caused the crew to lost eight lengths before being able to right the boat. However, having such a tremendous leeway to make up, they were able, by nothing short of a magnificent rowing exhibition, to get up to be beaten for second place by only one-third of a length. Their performance was applauded.
